Class Format	Registration	Tuition
Classes are designed to provide Biomedical Engineers with the technical information needed to service Cardiac Science products. Each Participant will receive operator and service manuals and supplementary information for the system they are being trained on. Outlines for each class are available upon request.	<ul style="list-style-type: none"> Class sizes are limited and are on a first-come, first-serve basis. Your reservation in a class is confirmed upon receipt of a purchase order or check. There is a \$100.00 cancellation fee if participation is cancelled within 30 days of scheduled class. Classes may be cancelled up to one month prior to the scheduled date if participation falls below minimum levels. 	Tuition covers training and handout materials. Additional costs such as hotel accommodations, meals, ground and air transportation are not covered as part of the tuition fee. **Class Location**
